IP-XACT User’s Group

Loic Le Toumelin (Texas Instruments)
Pierre Briciaud (Synopsys)
Wido Kruijtzer (NXP Semiconductors)
Adam Morawiec (ECSI)
Objectives

- Exchange of user experience
- Feedback from the community to support structured innovation and evolution of the SPIRIT Consortium standards
- Contribution to the adoption of the IP-XACT standard in industry
- Communication between the SPIRIT Consortium and the User Community
  - Users not necessarily involved in the standard development, but interested in applying it
- Provide insight on the adoption of IP-XACT by IP & EDA tools vendors
IP-XACT User’s Group is independent of the SPIRIT Consortium, but both organisations naturally work in tight collaboration.

IP-XACT User’s Group is a central information exchange platform for IP-XACT users, providers and EDA and gathers:
- industry partners (system, SoC integrators, IP, EDA)
- academia representatives (universities, research institutes)

SPIRIT Consortium provides support and relevant input to the User’s Group.

IP-XACT User’s Group is supported by the ECSI Association.

The participation in the UG is open to everyone.
Planned Activities

- DATE’08 – March 12, 2008 – Munich
  - Announcement of the User’s Group creation

- DAC’08 First Official Meeting
  - Proposed agenda structure
    - SPIRIT Consortium status presentation and discussion
